

Guidelines

Homework helps you learn the material—if you attempt the homework on the days it is assigned, you will get better grades on tests. Do your homework neatly so that you can refer to it when we go over the problems in class and when you have a homework quiz. Label every problem. Show your work.

| Day | Topic | Assignments |
|------------|---------------------------------------------------------------------------------|-----------------------------------------------------------|
| 1 | §6.1–§6.3 Planes | CW WS 36 HW WS 37 (all from book) |
